

YOU CAN'T GET TO THE MOON WITH A CANOE

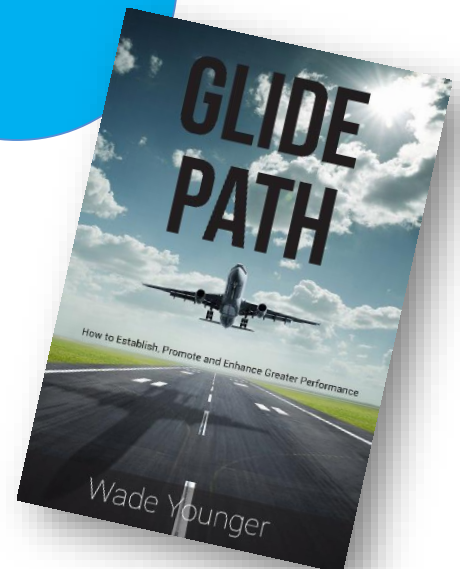

“The only sustainable competitive advantage is an organization's ability to learn faster than the competition.” ~ Peter Senge

If Rip Van Winkle woke up today, the only thing he would recognize is our educational system. It was created for 18th century needs, to train people to work in factories or the farm. Today, we're paid for what we know. We're knowledge resources, not farm hands. We're paid for our ability to learn. Unfortunately, our educational system doesn't teach people how to learn, how to focus, listen, innovate, think, remember, or problem solve. But there is a solution!

What Wade Will Cover in the ‘You Can’t Get to The Moon with A Canoe’ session:

- The Danger of Auto-pilot Education
- The 2018 Attention Span
- The Illusion of Competency
- How to Change Your Thinking
- Learning Resiliency
- How to remove Negative Self-talk
- Attempting to consume too much information
- The Beauty of the Minutes in between
- Think like a Genius
- Accelerated Learning
- Glide Path Performance Management
- Journaling
- Seven Steps to High-Performance Learning

This course comes with the companion book “Glide Path – Performance Management”.
